ATTEMPTED TO LYNCH HIM.

Poor-Box Robber Who Killed A Policeman Has a Close Call.

A THOUSAND MEN SEEK HIS LIFE

Policemen Have Difficulty in Rescuing Him--Milk Dealers Putting on The Screws.

By Wire to THE TELEGRAM.

New York, Oct. 28.—A crowd of about a thousand persons gathered in front of the East-fifth street police station at ten o'clock this morning when Fritz Meyer, the poor-box robber who murdered Policemen Frederick White who was attempting to arrest him, was brought out and taken to the coroners office.

As soon as the crowd caught sight of Meyer they shouted "lynch him," "lynch him." The policeman had a hard time in keeping the crowd from seizing Meyer and carrying out their threat.

Milk Takes a Rise.

New York, Oct. 28.—At a meeting of the Milk dealers Association it was decided that owing to the scarcity of milk in the producing districts the price will be raised two and a half cents on the gallon. A further increase may soon take place.

POINTS FROM HIGH POINT.

Personal and Local Affairs Briefly Mentioned.

TELEGRAM BUREAU,
HIGH POINT, N. C., Oct. 28, '97.

The dog and pony show has arrived. It is a very small show but there are several 'ittle doggies that are exceedingly cute.

The colored girl preacher, who was to have preached her first sermon tonight, has postponed her visit to our city indefinitely.

The engine to be used by the Berger-Wood Tobacco Co., of Greensboro, is being built at the High Point Machine Works.

A gentleman was quietly taking a nap on the railroad track, about one mile from here, this morning as the 11:40 train pulled out. The continued whistling of the engine seemed to have no effect upon him, and the air brakes were applied, but just before the train reached him the old gentleman looked around and lazily rolled from the track.

The Minstrels.

One thing that will be a surprise to those who see the minstrels at Bogart's opera house on Saturday, October 30th will be the entire absence of all the objectionable features, such as white face, spectacular, and circus adjuncts which have been injected into minstrel programs.

Richards & Pringle's Famous Georgias in mighty union with Rusco & Holland's operatic minstrels give an old-time minstrel show, with features up to date. Nothing said or done to offend the most fastidious is the guarantee of the management. adv

The Washington Fair.

The Washington Fair, which comes off Nov. 9th, 10th, 11th and 12th, 1897, at Washington, N. C., promises to be a grand success. The exhibits will doubtless be full and complete. The race tract is one of the best in the State, and no pains will be spared to make the occasion in every respect a gala week for Washington. A large number of the fastest horses now on the turf have entered, and the racing will be all that could be desired. A large corps of marshals has been invited and a grand marshals' ball will be given.

And So it Will Be.

Old Sol poked his head out from the misty mantle of cloud behind which he has been hiding for several days, at a quarter past ten o'clock today.

While enjoying the sunbeam we looked at the muddy streets and thought how, in a few days, if the sun shines, the water will all be licked up and the horrible mud turned into dust that will rise with every gust of wind and fill our eyes as we go groping about hunting for news.

After writing the above the office devil crawled under the stone and went to sleep.

Football at Danville.

On account of the football game at Danville on Saturday, Oct. 30, the Southern Railway Co. will sell round trip tickets to that place, good returning November 1st. Fare for round trip, $2.00. J. B. GRAHAM, T. A.

A GENUINE DELIGHT.

Was the Graham Company Last Night in "Who's Your Friend."

It is a pleasure to bear unsolicited testimony to the excellence of both the play and the company at the Academy last night. The play is well written and well staged and the acting is good, honest, genuine artistic work. There is not a dull line in the play nor a poor actor in the company.

It should not be forgotten that it is a play, not a "show;" it is the acting, not the costuming that constitutes the chief interest. The humor is the clear, wholesome, legitimate humor of human interest and not the humor of make-up and horse play. And yet from the rising of the curtain until it fell on the last scene the house was convulsed with laughter. The continual sparkle of the play and absence of amateurish acting were most pleasant.

Mr. Graham is of course the star but he has not gathered around him a poor company in order that he may shine more brightly by contrast. It is unjust to single out for special mention where there is so nearly an equality of merit but Mr. Hayden in the role of German, and especially ancient family servant, was above criticism.

The disagreeable weather last night and the loss of the play bills in the South combined to make the house rather small. Those who wish to see genuine comedy and high class acting will have the opportunity this evening. The company having an open date will repeat the performance at the Academy of Music. They should be greeted by a packed house; they deserve it, and if play-goers do not wish to miss a distinctly entertaining play they will have it. Many who saw the play yesterday evening will go again this evening.

His Impressions.

A visitor to Mt. Airy for the first time gives us his impressions as follows:

From Greensboro to the terminus, a feeling of unrest and a general homesickness, as the curves are rounded, mingled with a deep feeling of reverence and of admiration, each time the scare passes off, and a glimpse through the window is obtained.

At Mt. Airy, a feeling of wonder that you have just crossed the river, which you have lost an hundred times since first it was sighted—a feeling of thankfulness that you are up-side-up; a faint feeling of fearfulness for the return journey, and then a general sense of the full enjoyment of pure air, magnificent scenery and novel sights.

Among the last named attractions are wagons filled with apples, chestnuts, cabbages, men, women, childern and the like. Some of them (the wagons) being drawn by horses, some by mules, some by oxen, and some seeming to be run by brakes alone.

Inquire when you may, and you will find that everything comes from the mountains, apples, chestnuts, cabbage, men, women, children, horses, mules, dogs, cows, oxen, rain, hail, snow, wind and everything else except sunshine, the source of which is attributed to the heavens.

But for good food, pure air, healthy water, clever people, stirring people, working people, prosperous people, crooked streets, hilly streets and a general good time, go to Mt. Airy and take your chances for getting back.

The High Art Clothiers.

The Fishblate-Katz-Rankin Co. are doing a rushing business in their fall lines. They display one of the most complete line of goods in the state.

Their men's, youths', and children's departments are unexcelled. They gave their orders prior to the passage of the Dingley bill and are selling clothing away down.

Mr. Fishblate will return to Greensboro the latter part of the week but will remain only a few days as his business interests call him away. We congratulate this firm on their successes.

Handsome Line of Wraps.

The Guilford Department store has had a beautiful and handsome line of ladies wraps consigned to them on approval and would ask all in need of wraps to call in tomorrow and next day and inspect them as we can only retain them a few days.

Important Meeting.

Members of the Merchants and Manufacturers Association are requested to attend an important meeting at the club rooms at 8 o'clock this evening, by order of the board of governors.

HAS ANDREE BEEN DROWNED

A Report that His Balloon Was Seen Floating in the Ocean

SVERDRUP DISCREDITS REPORT

Preparing to Investigate the Matter. Game Wardens and Ute Indians Still Fighthing in Colorado.

By Cable to THE TELEGRAM.

Christiana, Norway, Oct. 28—A dispatch from the Island of Vardoe, in the Arctic ocean, off Finmark, on which is situated the Vardoe house, the northern most fort of Europe, says that the public there is fully convinced of the truth of the reports received in regard to Andree. These reports say that a whaling ship sighted Andree's balloon floating on September 23d, near Prince Charles. The news has caused considerable depression among Andree's friends.

Brakemo, the arctic explorer, proposes to sail to the scene in order to investigate the truth of the story.

Captain Sverdrup, of the Nansen exploring ship Fram, does not believe the report correct.

At it Tooth and Claw.

By Wire to THE TELEGRAM.

Meeken, Col., Oct. 28—Reports received here today from Boyd Vaughn's ranch state that the Ute Indians are fighting with the game wardens who ask the assistance of troops for the protection of the setttlers. The first shot was fired by an old squaw. Seven Utes have been killed.

NEW WIRE MILL TRUST.

Capitalized at a Hundred Million dollars.

By Wire To THE TELEGRAM.

Chicago, Oct. 28.—It was given out here last night as a fact that a wire mill trust is being formed in which Rockfeller and other Standard Oil men are interested. The trust will have a capital of a hundred million dollars, will control the whole American industry and employ fifty thousand men. It will have its headquarters in Chicago and the mills consolidated will be bought outright to evade the anti-trust law. The plan is to limit the production of wire.

MINERS WIN A VICTORY.

And the Colorado Strike Has Been Compromised.

By Wire to THE TELEGRAM.

LaFayette, Col., Oct. 28.—At a meeting today the coal operators and the representatives of two thousand miners a compromise was reached and the strike which began last Monday was declared off. The settlement was practically a victory for the miners.

MAY END A LONG STRIKE.

Striking London Engineers and Employers Arrange for Conference.

Glasgow, Oct. 27.—It is now understood that the Employers' Federation and the delegates of the Amalgamated Society of Engineers, at their meetings yesterday, communicated with each other through the board of trade that a conference between representatives of the employers and delegates from the striking engineers has been practically arranged, the latter having agreed to withdraw their demand for eight hours' work per day, which has been the great stumbling block in the way of arriving at a settlement of the great strike.

Young White Man Arrested.

A Rockingham Special to the Charlotte Observer says: Ball Allen, a young white man, was arrested under suspicion of being the assailant of Miss Cole, and the sheriff at once sent him to Raleigh for safe keeping. His friends claim that they can prove an alibi. He will be liberated in that case, but if not he will be brought back for identification. Everything is quiet, as the people feel that the authorities will do all in their power to find and convict the fiend.

Consumption in a Cigar.

By Wire to THE TELEGRAM.

San Francisco, Oct. 28. — Dr. J. C. Spencer, the bacteriologist of the board of health heve, reports that he has discovered bacilli of tuberculosis in a Chinese made cigar which he ex-examined.

To Be Married.

Cards are out for the marriage of Miss Annie Watson, of Charlottesville Virginia, to Mr. George Edward Walker. Miss Watson is well known here, having visited her aunt Mrs. Dr. J. Henry Smith.

WILL GO UP TO DAWSON.

Letter From Lieut. Richardson of the 8th Infantry.

Washington, D. C., October 28.—A letter has been received from Lieut. Richardson of the 8th Infantry, who is accompanying Capt. Ray in his Alaskan inspection, in which the officer says that he will remain with Capt. Ray at Fort Yukon until the river freezes over, which is expected shortly, and that then they will try to make their way up to Dawson by dog teams.

At the date of report, September 13, the steamers were unable to get above Fort Yukon bar, and were unloading goods there. That meant, in the opinion of the lieutenant, a serious condition of affairs up at Dawson; in fact, nothing less than starvation. Already boats were going down the river with parties of three or four persons looking for provisions, and large numbers were expected down as soon as the river closed. It is doubtful if there was food enough on the river for all, even if properly distributed. Some might go up by dog teams when the freeze comes, but that would be a slow process.

About 350 persons are wintering at Rampart City, around which the prospects are so good that they are believed by some to forecast a second Klondike.

GORMAN TAKES COMMAND.

In Charge of Maryland Campaign--Gov. Lowndes' Prediction.

Baltimore, Md. Oct. 27.—Senator Gorman was at the democratic state headquarters today and attracted a large number of city politicians. The senator has practically assumed control of the democratic campaign, and will be in full charge of affairs until the election.

Governor Lowndes said today that he expected to see the entire republican ticket elected by a large majority. He said that he entirely disagreed with the opinion of Senator Wellington, and that a week in the city convinced him that Malster would be elected mayor.

WARFARE.

A Raleigh Dispatch to the Wilmington Star of yesterday morning says:

"Dr. J. J. Mott has awoke from his long sleep. Mott's sudden appearance in the political horizon is like the coming of the dead. The Iron Duke has written a Populist letter to the Governor, in which he commends his course in his warfare on railways. He says as long as there are railways the people will never be able to change the money laws."

The term "warfare" unfortunately expresses too nearly the action of Governor Russell toward the railroads. Warfare means destruction; that is its end and object. It may aim at ultimate good but for the time being it must have recourse to the jesuitical argument that the end justifies the means.

A little care should be exercised in matters where millions of dollars are invested. There is just a bit too much of demagogic outcry against railroads simply because they are railroads. A warfare on railroads? And why, pray, a warfare? Are railroads bad things in themselves? Are all railroads inimical to the interests of the citizen? Let the railroad like every other business interest have equal and exact justice.

We have no desire and no intention to take up the cudgels in favor of railroads. Some of them are fraudulently and flagrantly mismanaged. Some of them are turned to illegitimate ends. The vast power of the wealth aggregated in them and the advantages of position as a common carrier are sometimes used to oppress, to intimidate and to corrupt. We have known of instances. Where such is the case energetic, but sane measures should be adopted to put an end to the practices. But the indiscriminate abuse of railroads so far from doing good does positive harm; so far from helping to correct the evil it makes correction well nigh impossible by disgusting and alienating those who are best able to stop infringements of law and encroachments on the rights of the citizen.

If the warfare depended for support upon Governor Russell the matter might be dismissed in silence; it would amount to nothing; but there is a wide spread sympathy with his tactics among all classes. Men who disapprove of the Governor's course in nearly every matter that has claimed his attention as an official heartily approve of his attitude toward railroads.

There is a way of doing all things decently and in order; there is a way of making it impossible to do anything and Governor Russell has apparently hit upon that way. He is not a safe man to follow where coolness, caution and good judgment are indispensable to the accomplishment of an object. To charge everything and end by proving nothing is not the best possible method of proceeding in law. It would be difficult to find a man better qualified to fail in a just cause or more poorly qualified to show that his cause is just.

THE discharge of 434 policemen in Chicago at a swoop shows only too plainly that the force must be laboring under civil service regulations.

OF course it had to come. The woman who dreamed all about the Garrison disaster before it happened has risen to the occasion. If such revelations were made known a few days ahead of time it would afford better facilities for the writing of wills.

AND so Secretary Gage has a plan for the settling of the "feenanchul" question. Bully for Secretary Gage. He can now look every man in the face without a feeling of conscious inferiority.

SUCH is fame. The reports of the dinner given in honor of Carl Decker and Miss Cisnersos was given only a single head line and stowed on the inside of the metropolitan dailies.

WHEN compressed air motors are put on the Washington street cars a new departure will be scored. For the first time in the city's history wind will be put to a practical use.

SPAIN'S reply to the United States is expected to show that all of Weyler's eloquence has not satiated her thirst for gore.

THE wires are down and an anxious country is waiting to be told where Teddy Roosevelt was when it came on to blow.

News of the Old North State.

North Carolina is not a fast State, but a Surry county man is entitled to the cake for rapidity. He got a divorce from his wife at 9 a. m., walked 12 miles to his home, got his best clothes, walked 10 miles to get a marriage license, secured it and then made a final tramp of 8 miles to the home of a widow and at 9 p. m. married her.

Senator Butler says in his paper that it has information which leads it to believe that the Western Union Telegraph company is atttemping to work a deal with the railroad commission and that the plan seems to be to remand the injunction case to the commission from the federal court, and then have the message rate fixed at 25 cents on condition that the company pays more taxes.

Rans. Kelly, a brakeman on freight train No. 46, got his arm broken last night in the Southern passenger yard, while coupling cars. He was pushing against the coupler with a stick. The stick broke and his arm went between the bumpers and was badly crushed. He was taken to the hospital and attended by Drs. McCombs and Gibbon. His arm will not have to be amputated.—Charlotte Observer.

F. A. Olds writes to the Charlotte Observer: "The estimate now is that the penitentiary corn crop will be 100,000 bushels. It requires about 60,000 bushels for the use of the convicts and the stock. This will leave 40,000 bushels for sale, worth say $16,000. The estimate is that the cotton crop is 2,700 bales. Last year Superintendent Leazer made 2,600 bales and about 500 were lost by the great freshet in the Roanoke, which also destroyed 60,000 bushels of corn. It is asserted that Superintendent Smith will have over $25,000 with which to start the new year.

HARRIS' LITHIA WATER
OF SOUTH CAROLINA.

Contains More Lithia than any Natural Lithia Springs Water on the market. There are a great many so-called Lithia Waters on the market whose analysis show that they contain only traces of lithia. It seems that if you wish a Lithia Water you should examine the analysis of the waters and find out how much they contain. The analysis of Harris Lithia Water was made by the noted R. Ogden Dosemus, M. D., LL. D., Professor of Chemistry and Physics, College City, of New York. If the Harris Lithia Water is not Superior to any other water on the market, do you think that the following noted physicians from all parts of the country would give their testimonial, stating that it was? They have no interest in the Harris Lithia Water.

After a long and varied experience in the use of mineral waters from many sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of afflictions of the Kidney and Bladder unequalled by any other water of which I have made trial.
This opinion is based upon observation of its effects upon my patients for the past three years, during which time I have prescribed it freely and almost uniformly with benefit in the medical maladies above mentioned.
Columbia, S. C., Oct. 8, 1892. A. N. TALLEY, M. D.

Mr. J. T. Harris:—Dear Sir: I have found the use of the water from your Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine, who has suffered for years with Diabetes, with all its different attendants, that I want to add my testimonial to the many you already have. The patient I refer to has used the water freely at home for scarcely a month now, with more beneficial results than from months spent at the different noted lithia springs in different parts of the United States, besides long continued use of the same waters at home. Others of my patients and friends are now using the same with best results. I cordially recommend it to all suffering from similar diseases Very respectfully yours,
THOMAS S. POWELL, M. D., Pres. Southern Medical College, Atlanta, Ga.

Read what Prof. Jos. Jones, of Tulane University, of New Orleans, has to say in regard to the virtues of Harris Lithia Water:
New Orleans, La., Aug. 13, 1894.
Harris Lithia Water Co., Harris Springs, S. C.:
Gentlemen—I have used, with great benefit, the case of water sent me, and regard it with favor, being highly charged with Lithia.
Respectfully, JOS. JONES, M. D.

June 12, 1893. Mr. J. T. Harris, Harris Springs, S. C.:
Dear Sir—I have used the Harris Lithia Spring Water for the past year in all renal troubles, with prompt and efficient effect. In gouty and rheumatic troubles I consider this water superior to the Buffalo Lithia Spring water. I suffered from an attack of rheumatism for eight months, during which time I drank the Buffalo Lithia water constantly for four months without effect. In November last I had a case of Harris Lithia Water sent to me, and after drinking it for about three or four weeks, the pain and stiffness left my limbs and I have not been troubled since. I feel that I can safely recommend the Harris Lithia Water. Respectfully,
Savannah, Ga. R. B. HARRIS, M. D.

"The Harris Lithia Water is, in my opinion, unexcelled for those ailments requiring the salts it contains. THEO. LAMB, M. D.
Professor Diseases of Chest and Principles of Medicine, Medical Department, University of Georgia.

Asheville, N. C. April, 24, 1893.
An extended clinical use of the Harris Lithia Water prompts me to the statement that I regard it as one of the best, if not the best Lithia Water known to the profession. In the condition of Phosphatic Urine, its action is marvelous. Its use in the Rheumatic and Gouty Diseases afford me more comfort than either the Buffalo or Londonderry Waters. Very truly yours,
JOHN HEY WILLIAMS, M. D.

Atlanta, Ga., April 20, 1897.
I have used for sometime Harris Lithia Water in my family, and also with my patients, and find it is the best Water I ever used in catarrhal condition of the uretus and bladder. It is also a good diuretic Water.
G. G. ROY, M. D.

Charleston, S. C., Sept. 20th 1893.
Mr. J. T. Harris:—Dear Sir: I am constrained to send you this testimonial of the efficacy of the Harris Lithia Water. The value of the testimonial may be enhanced from the fact that it goes to you unsolicited. As a friend of humanity, I feel bound to withhold my knowledge of its virtues no longer. I have been using the water for more than a year with marked benefit. To any one troubled with kidney disorder, it is the remedy par excellence. I prefer it to the Buffalo Lithia Water. Very truly yours,
A. C. KAUFMAN,
President Vanderbilt Benevolence Association of Charleston, S. C.

Mr. J. T. Harris, Proprietor Harris Lithia Springs:
Dear Sir—While it is contrary to my custom to give testimonials to remedial agents, I feel free to attest to the efficacy of the Harris Lithia Water (when used in large quantities) in the Rheumatic and Gouty Diatheses; in Inflammation of the Bladder, and in all cases where there is an excess of solids in the urine. Yours respectfully,
Columbia, S. C. GEO. HOWE, M. D.

The waters of the Lithia Springs are odorless, free from color, with a pleasant saliney taste, rather palatable. When taken in considerable quantity, they do not nauseate, purge or produce any feeling of discomfort. I find from the analysis of the waters, they contain Chloride Sodium, Carb. Potash, Carb. Soda, Carb. Lithia, Carb. Iron and Sulphate Magnesia. These waters act directly upon the mucous coating of the stomach and alimentary canal, they are powerfully alternative and tonic. They are everything to inflamed or irritated surfaces. They act upon the blood, changing it from acid to alkaline. In Indigestion, Catarrh of Stomach and Gastralgia, supplemented with a proper diet they are a certain cure. The action upon the kindneys is marked. The Sodium, Potash, Soda, Lithia, are the best solvents of uric acid, all calculi of an acid character, whether litary or cystic, are steadily dissolved. I am confident that the profession will find it very useful in cases where this class of water is required. Respectfully,
Waterboro, S. C., April 10, 1892. J. Q. WILBUR, M. D.

Camden, S. C., Aug 24, 1893.
Mr. J. T. Harris:—Dear Sir: I enclose you in this letter several small pieces of calculi passed by a patient of mine, who has been taking the "Harris Springs Water" for the past eighteen months. This gentleman has been a sufferer for two or three years with Cystitis, caused from stone. The solvent power of the water has been, I think, clearly demonstrated in this case. All these fragments were passed in two evacuations from his bladder in the past ten days. I consider Harris Spring Water a most excellent remedy in the Uric Acid Diathesis, also in Chronic Dyspeptic troubles.
I am, yours respectfully, A. W. BURNET. M. D.

Chester S. C.
Dear Sir: For the past eight months I have been using Harris Lithia Water with the most excellent results, where I have been able to get my patients to drink a sufficient quantity daily. The carbonated has no equal in Gastric disturbances. It is an excellent table water. It is a pleasant laxative, and is a sure cure for flatulent dyspepsia. S. M. DAVEGA, M. D.

Atlanta, Ga., April 24, 1897.
Mr. J. T. Harris, Harris Springs, South Carolina:
Dear Sir: I have found Harris Lithia Water an exceedingly valuable remedy for persons suffering from Kidney and Bladder Troubles. Therefore take pleasure in recommending it. Respectfully,
JAS. F. ALEXANDER, President Board Health.

Baltimore, June 24, 1896.
J. T. Harris, Esq., Harris Spring, South Carolina:
Dear Sir: I have been using Harris Lithia Water for sometime, and I will say to you that in my opinion that the Harris Lithia Water that is by far the best Lithia Water that I have ever used, and that it has done me a great deal of good, and I think it a most valuable remedy.
R. C. HOFFMAN, Pres. S. A. L. R. R.

Atlanta, Ga, April 20. 1897.
Harris Lithia Water Co.,
Gentlemen:—I have used Harris Lithia Water for the past two years and find it a most excellent remedy for dyspepsia and other stomach troubles. I cheerfully recommend it CHAS. M. NEEL, Pres. Ga. Military Institute.

A Fair Proposition.

We will guarantee that one glass of HARRIS' LITHIA CARBONATED WATER will relieve any case of indigestion in one minutes' time or money refunded, or if taken after each meal will cure the worst case of indigestion. You see what the noted Dr. Davega, of Chester, S. C., has to say in regard to it, and there is not a physician in South Carolina who stands higher in the profession than he does, and besides you lose nothing by giving it a trial, as our agents are authorized to refund the money to any responsible person who will not admit that he was benefited by it.

CHARLOTTE, N. C., April 5, 1895.
MRS. JOE PERSON,
Madam:—last year I was afflicted with some skin trouble affecting my feet, pronounced by my physician to be erythema. I was confined to my room for some two months and was lame for six months or more. After trying many remedies without effecting a cure, I resorted to your Remedy. After taking three bottles I began to improve, and before I had finished the fifth or sixth bottle I was practically free of the trouble. Once since then there recurred symptoms of its return, when I again resorted to your Remedy, and again the trouble disappeared. I believe I am indebted to you for relief from a very serious affliction.
Yours truly,
HAMILTON C. JONES.

The south end of South Elm street is coming—don't forget that. They've got a drug store, dry goods stores, grocery stores, hardware stores, wholesale stores, shoe and harness shops, a barber shop, bill boards and the dog show, but the street scraper has not done any scraping on Bain street yet.

Yesterday we suggested that the lob-lolly of mud and slush around the Southern depot was a nuisance, and today the company has had a coating of the softest mud scraped off and a thin layer of gravel scattered over the place. This will help a little, but a day or two of sunshine and wind would do a great deal better than this small quantity of gravel. Just a little more rain and it will be as bad as ever.

What Ought to Be Done.

The talk about building a fence to to keep the carriage drivers out of the way of people about the depot is all well enough in a certain sense, but there may be two sides to the question.

Suppose the fence were built as suggested would it not force people into a smaller space than they now have there? It strikes us that if all passengers were forced out to the corner where the carriages stand that about train hours (which last pretty much all day) the place would be blocked so that people could not pass.

The fence would be too much in the way. Have an ordinance compelling the drivers and porters to stand by their carriages or just on the edge of the sidewalk, and not in the middle of it, and enforce that ordinance. This will do business, and a grateful traveling public will appreciate it.

Don't build the fence; there are too many obstructions about there now.

Witchwork.

Those who come to us for Fall Shoes sometimes think it must be witchwork that makes it possible for us to fit them so quickly, perfectly and cheaply. Not a bit of it. It's not witchwork, but hard work, that does it.

While you were fishing and loafing and resting this summer, we were at work to get this stock in shape—which work is what worked the witchwork.

For Example:

We are offering this week:

Ladies' Vici Kid, hand sewed button shoes, London toe, patent tip, B, C, D and E width, at $3.50, worth $5.00.

Ladies' cloth top button or lace shoes, patent tip, com. toe, C, D and E widths, sizes 1 to 7, at $2.50. This shoe would be cheap at $3.50.

We have a full line of Felt Slippers for men and women.

SHRIER'S, 216 South Elm Street.

MAIL ORDERS WILL RECEIVE PROMPT ATTENTION.
